

# DOTS Address Validation – International

## VALIDATE ADDRESSES IN OVER 250 COUNTRIES

DOTS Address Validation – International<sup>SM</sup> by Service Objects is the leading real-time International Address Validation service with response times as fast as 200 milliseconds and match accuracy rates up to 99.5%. Our real-time (API) International Address Validation service verifies and corrects international mailing addresses to the unique requirements of each country's postal address formats and cultural idiosyncrasies. Our continually updated databases include both country-specific government sanctioned postal authorities as well as proprietary data sets ensuring addresses are genuine, accurate and up-to-date.
