## APPEND CURRENT SALES & USE TAX RATES FOR US & CANADIAN ADDRESSES IN REAL-TIME

DOTS FastTax<sup>SM</sup> by Service Objects is a real-time web service API that provides the most accurate sales and use tax rates for US and Canadian addresses. This service offers multiple lookup options that include searching for the sales and use tax rates by street address, postal code or city/county/state. To ensure that only the most accurate tax rates are returned, the DOTS FastTax service utilizes our DOTS Address Validation<sup>SM</sup> service behind the scenes to validate the full street address to the ZIP+4 level.
