

DOTS GeoPhone Plus 2

REVERSE MOBILE & LANDLINE PHONE NUMBER LOOKUP FOR BUSINESS & RESIDENTIAL TELEPHONE NUMBERS

DOTS GeoPhone Plus 2 has over 400 million US and Canadian records, including 170 million wireless numbers, making this the most accurate, up-to-date telephone number validation service available. The reverse phone lookup API provides geocoded carrier and contact information, phone type, SIC business categorization on business numbers, SMS/MMS address information for wireless numbers and Local Number Portability tracking for carrier and line type identification on ported numbers. The reverse phone lookup also identifies portable VoIP and prepay phone numbers for fraud prevention practices.

FEATURES

- Reverse-lookup of wireless, landline, VoIP and toll-free telephone numbers for residential, business and government telephone listings
- Database includes over 400 million individual telephone records, with 170 million wireless numbers
- Accesses Local Number Portability (LNP) data and returns date of porting
- 8 digit SIC code and description provided for finer detail into business classification
- Data is compiled from over 2,300 US, Canadian and Puerto Rican telecom carriers
- Response time approximately 500 milliseconds
- Portable VoIP Detection including Google Voice
- Identifies current carrier, location and line type of ported phone numbers

SAMPLE REQUEST URL

Here is an example of a URL passing data as parameters:

```
https://trial.serviceobjects.com/gpp12/api.svc/GetPhoneInfo?PhoneNumber=805-963-1700&TestType=full&LicenseKey=[YourKey]
```

PRODUCT BENEFITS

- Enhances customer records with valid wireless phone number data
- Verifies accuracy of phone number in accordance with other data points
- Fixes incomplete contact records
- Connects alternative phone numbers with existing contact records

WHY SERVICE OBJECTS

- Most accurate data available
- 24/7 customer support
- 99.999% server uptime guarantee
- Simple pay-as-you-go pricing
- No long-term contracts
- Bank-grade security
- Open industry-standard programming interface
- Free API trial key or sample batch

COMPATIBLE LANGUAGES

Service Objects offers sample code in many industry-leading programming languages to assist with integration. Developer Guides are also available online for each product.
