

# Two Ways to Check Your Usage

MONITOR YOUR TRANSACTION USAGE TO MAXIMIZE YOUR SUBSCRIPTION AND AVOID COSTLY OVERAGES.

We highly recommend that you regularly check the transaction usage on your DOTS License Key(s). Your company is responsible for all transactions originating from your applications using the unique license key(s) that you've been assigned. Customers and Trial Users alike can use the web-based usage reports form for quick access to transaction counts on your Customer Production Key or Free Trial Key. No login necessary!

## WEB-BASED USAGE REPORTS

1

Use the web-based reporting tool located on our website under the Support option, to quickly view your usage. Simply enter your license key, the email associated with the license key, select the key type ('Customer Production Key' for Customers and 'Free Trial Key' for Trial Users) and the date range you'd like to view.

## API-BASED USAGE REPORTS

Alternatively, Customers can use the web service API for usage reporting directly from your application. Check your DOTS usage by way of the API Tools below. Use the web service API for usage reporting directly from your application. There are three reporting options to choose from:

- Transaction Details by Date Range: Usage by day for a specific date range
- Transaction Details by Day: Usage for a specific date
- Transaction by Date Range: Total usage for a specific date range
