<p>Mean Time To Repair (MTTR)</p> <p>The average time to repair a device or a system back to acceptable operating conditions. The term can also mean, the time spent to restore a machine to operating condition after failure. This must be as low as possible.</p>	<p>Mean Time Between Failures (MTBF)</p> <p>The average time that a device or a system worked without failure. The term can also mean the length of time a user may reasonably expect a device or system to work before an incapacitating fault occurs. This must be as high as possible.</p>
