Datacenter West	0 Mins 0 Secs	0 Mins 0 Secs	100	0	

Mean Time To Repair (MTTR)	Mean Time Between Failures (MTBF)
The average time to repair a device or a system back to acceptable operating conditions. The term can also mean, the time spent to restore a machine to operating condition after failure. This must be as low as possible.	The average time that a device or a system worked without failure. The term can also mean the length of time a user may reasonably expect a device or system to work before an incapacitating fault occurs. This must be as high as possible.
